

# Push Notification Sender

WordPress Plugin

---

## What is Push Notification Sender?

- - - -

Push Notification Sender is a plugin that helps you to send Push notifications from any WordPress website using the SiberianCMS API.

## Quickstart

- - - -

To start using you will need 2 main things:

- 1- Upload the plugin on your WordPress website.
- 2- Create Siberian CMS API keys

## How to upload the plugin?

- - - -

Basically open your wp-admin > plugins > add new and upload the zip file.

## How to create API keys in Siberian CMS?

-----

To create API keys, First, you will need to log in to your back office.

Then go to Manage > Users > API

The screenshot shows the back office interface for 'MOBILE COMPANY'. The navigation bar includes 'Dashboard', 'Manage', 'Appearance', 'Settings', and 'Messages'. The main section is titled 'Api Users' and contains a 'List of your users' table with a '+ Add' button. A search bar is present above the table. The table has columns for 'Id', 'User name', 'Firstname', 'Lastname', 'Created At', and 'Actions'. One user is listed with ID 1, username 'dev@dev.com', and created at 'May 22, 2018 8:06:1...'. The version 'MAE - v4.13.19' is noted in the bottom right.

Id	User name	Firstname	Lastname	Created At	Actions
1	dev@dev.com			May 22, 2018 8:06:1...	

Click on icon and enter the details, Make sure you grant access for Push notifications when you select the options.

## User

### Edit the user test

**Username**

**Firstname**

Save

MAE - v4.13.19

Once you add the user, Save the details and go to next.

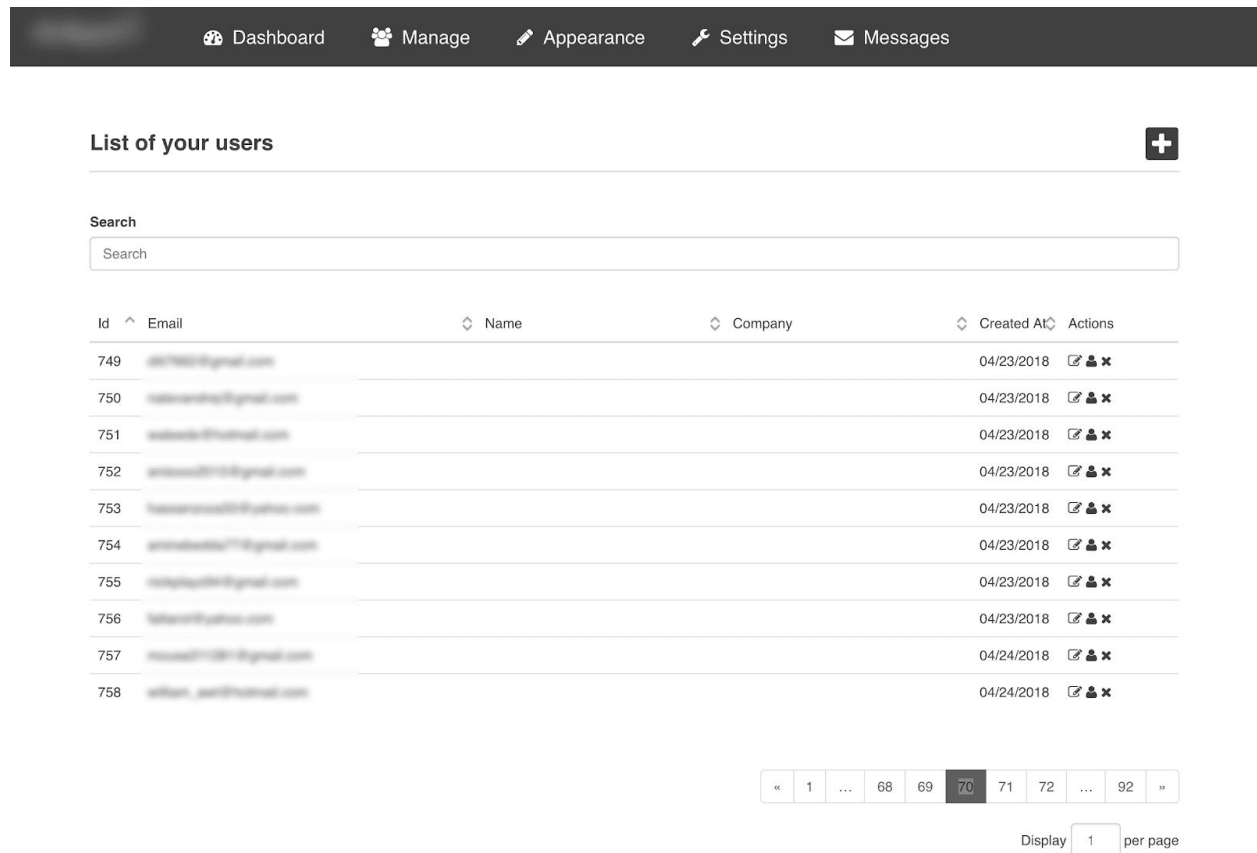

## How configure Push Notification Sender?

The screenshot shows the WordPress admin dashboard with the 'Push Notification Sender' settings page open. The left sidebar menu is visible, with 'PNS' selected. The main content area has two tabs: 'Sender' and 'Settings', with 'Settings' active. A yellow warning box at the top says 'Please enter your domain and other settings at first.' Below this, there is a 'Plugin License Key' section with a text input field containing 'Enter your license key' and an 'Update' button. The 'Your SiberianCMS connection settings:' section includes 'Auth type' with radio buttons for 'Basic' (selected) and 'Bearer'. It also has input fields for 'Domain' (containing 'Enter domain'), 'Username' (containing 'Enter username'), and 'Password' (containing 'Enter password'). At the bottom, there is an 'Admin ID (0 = ALL)' input field and another 'Update' button.

- 1- Open your wp-admin
- 2- From the left menu, Go to PNS
- 3- Click on the setting tab.
- 4- Enter the details.
- 5- You are done!

## How to find specific user ID?

Dashboard Manage Appearance Settings Messages

### List of your users

Search

Id	Email	Name	Company	Created At	Actions
749	ad7982@gmail.com			04/23/2018	
750	ad7982@gmail.com			04/23/2018	
751	ad7982@gmail.com			04/23/2018	
752	ad7982@gmail.com			04/23/2018	
753	ad7982@gmail.com			04/23/2018	
754	ad7982@gmail.com			04/23/2018	
755	ad7982@gmail.com			04/23/2018	
756	ad7982@gmail.com			04/23/2018	
757	ad7982@gmail.com			04/24/2018	
758	ad7982@gmail.com			04/24/2018	

« 1 ... 68 69 70 71 72 ... 92 »
